Greg,

Following a brief review of the content of the AA Screening Report, I accept your recommendation as set out in the reasoned determination below.

Sincerely
Vincent

Subject: FW: Re. Sneem Bridge AA Screening [KY-N70-051.00]
Vincent

Having reviewed Paul's email below and having regard to the nature of the works, I recommend that the following reasoned determination can be made:

Having performed screening for Appropriate Assessment in respect of the proposed reactive maintenance works detailed in the email received from Paul O'Donoghue dated the 9th March, 2021, and entitled Re. Sneem Bridge AA Screening [KY-N70-051.00], I accept the recommendations of Atkins that the proposed reactive maintenance works, individually or in combination with other plans or projects, would not be likely to have a significant effect on any European site in view of the best scientific knowledge and the site's conservation objectives. I determine that an Appropriate Assessment of these proposed works is not required, as it can be excluded on the basis of objective scientific information following the screening done that the proposed works, individually or in combination with other plans or projects, will have a significant effect on any European site.

Kind Regards

Greg

Re. Sneem Bridge AA Screening [KY-N70-051.00]

Please find attached an AA Screening report for proposed masonry repair works at Sneem Bridge (KY-N70-051.00), Sneem, Co. Kerry.

The engineers have asked if you could treat this as a priority as Kerry County Council need to apply for a road closure to undertake the works, but are not able to apply for the closure until the Screening is complete. They would like to undertake this work as soon as is possible.

Regards

Paul
