| Date of Publication: | March 2009                  |

## 1.0 Introduction

This report details the length of National Road network in the Republic of Ireland up to year end 31/12/2008. The actual length of the National Road network fluctuates year on year for the following reasons;

- The opening of a new section of road that is classified as a national road thereby replacing the old route
- Re-alignments to existing National Roads
- Changes to the classification of roads.
- Analysis and updating of data contained in the Roads Database

The key changes to this years figures are as a result of the following schemes opening,

- N06, Kilbeggan to Athlone, also affecting N52, N62 & N80
- N08, Cullahill to Cashel, also affecting N62 & N75
- N08, Cashel to Mitchelstown also affecting N24 & N74
- N09, Carlow Bypass, also affecting N80

Also, on the 25<sup>th</sup> of August 2008, the Minister for Transport signed a Statutory Instrument relating to the Declaration of Motorways Order. The result of this was that a number of sections of national road have been declared as motorway. The figures indicated in this report reflect this change. Sections of road on the N06, N07, N08 and the N09 have been declared as motorway under this Act.

Corrections have also been applied to the Roads Database based on surveys carried out throughout 2008 and also in conjunction with large scale OSi mapping.
