Noise Zone

Ireland Strategic Noise Mapping
Round 3 (2017)

Title:
 L_{night} (dB) - County Clare

Coord. Syst.: TM65 Irish Grid
Scale: 1:350,000 @ A3
Date: December 2017 Rev01

This map shows the weighted predicted annual average night time (L_{night}) road traffic noise levels in County Clare. The map has been created in accordance with S.I. No. 140/2006 (the Environmental Noise Regulations) and is a representation of the average environmental noise levels over one complete year. This map forms part of a national noise mapping strategy which can be primarily used as a strategic tool for large scale planning or policy matters and is not suitable for local noise assessments. National and regional roads deemed to be carrying in excess of 3 million vehicle passages per year were assessed in this national study.
