

Note

The following summary Table, produced daily, provides traffic trend information derived from a small sample set of traffic counters located on the national road network.

The information below covers the morning period from 7am until 10am. The trend for car traffic from this period of the day generally correlates closely with the overall daily trend in car traffic at each location.

Introductory Remarks

- Traffic figures are measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic has remained largely stable and accordingly the daily figures provided are for cars only.
- The changes recorded day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week and the same day last year.
- **Level 3 restriction came into effect on Wednesday 7th October 2020.**

Daily Data for Monday 20th December 2021

- A protest event took place on the same day last week impacting traffic counts at M1, M7, M11 and the M50. The comparisons to those have been left blank.
- The comparison with 2019 shows a significant increase due to the equivalent day in 2019 being the 23rd December.
- Overall, this morning's traffic volumes show a decrease as compared to those one week previous, Monday 13th December 2021, and a substantial increase as compared to traffic volumes to the same day in 2020.
- Car traffic just south of the Northern Ireland Border on the N1 at Jonesboro shows a -3% decrease as compared with Monday 13th December and a +15% increase as compared to the same day in 2020.
- In the case of the non-motorway border counter sites, traffic volumes today show changes of between -11% and -4% as compared with Monday 13th December. The changes in car traffic volumes since the same day in 2020 ranges from -1% on the N16 east of Manorhamilton to +14% on the N2 north of Monaghan. It should be noted that traffic volumes at the N2, N3, N13, N15 and N16 counters are lower than at the motorway traffic counters and are likely to display wider fluctuations in traffic figures than other traffic counters.
- Traffic volumes on the radial routes into Dublin, comparisons with the same day in 2020 are as follows: +15% on the M1 at M50 to Airport, +4% on the M11 at Bray, +13% on the M4 at Celbridge-Maynooth, and +8% on the N7 at Citywest.
- The M50 (N3 Navan Road to N4 Galway Road) shows a +11% change as compared with the same day in 2020.
- In the case of the regional cities the changes in car traffic volumes this morning as compared with Monday 13th December are as follows: N6 Galway -7%, N40 Cork -2%, M9 Waterford 0%, and M7 Limerick -5%. Comparisons with the same day 2020 are as follows: N6 Galway -2%, N40 Cork +4%, M9 Waterford +9% and M7 Limerick +14%.
